## Gateway to Dental Education Campaign

The Hebrew University of Jerusalem's Gateway Campaign, a \$250,000 fundraising effort, will be used to establish a lasting tribute to Dr. Morton Amsterdam's legendary accomplishments by completing and beautifying the entranceway to The Hebrew University-Hadassah School of Dental Medicine. Included in the plans are: a Remembrance area and Founders Wall saluting the School's past honorees; a game-filled children's waiting area, a museum containing past research and publications; the Saligman Auditorium; and a large open meeting area. Donors are invited to contribute to this meaningful initiative.

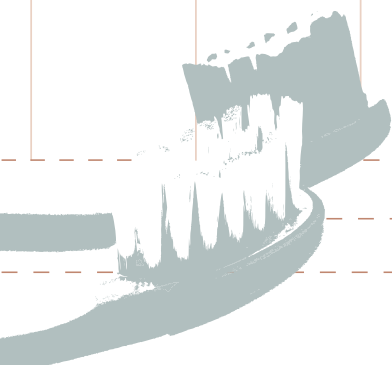

## The Importance of Dental Education to the Middle East Region

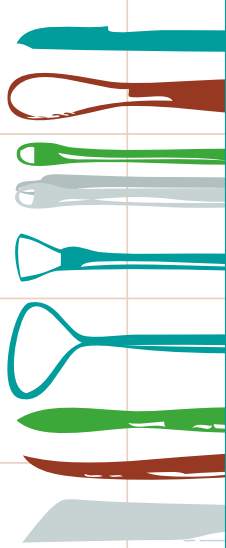

Through the tireless efforts of Dr. Amsterdam and Dr. D. Walter Cohen, The Hebrew University established the D. Walter Cohen Middle East Center for Dental Education.

Dr. Amsterdam is a staunch advocate of the pioneering partnership between The Hebrew University and Al-Quds University in the realm of dental medicine and education. He embodies the spirit signified by the majestic Etz Shalom, Tree of Peace, sculpture recently installed on the Ein Kerem Campus as a symbol of Israel's outreach to the nation's regional neighbors.

Dr. Amsterdam believes promoting oral health among Palestinians as well as Israelis is a vital means of fostering co-existence between Israel and her neighbors, and helps to create a brighter, healthier, and more peaceful tomorrow.
